As per the techno-economic evaluation, the estimated gains for high activity catalyst (UOP) in JR CCRU are Rs 52.69 Cr in 04 years if the tender specifications are considered. The current catalyst is in operation for 8 years. The net estimated gain will be Rs 107 Cr if 8 Years of catalyst life is considered</p> <p>2. The Unit was commissioned in October'2006 and the PGTR was conducted from 29th Nov to 01st Dec, 2006. During the PGTR period the average reformat yield was 91.66 wt% and RON was 106.47 against the present tender specified reformat yield of 89.9 wt% min. and RON of 101 Min.</p> <p>The present catalyst in operation is R-134 and vendor is expected to supply the new generation catalyst which is expected to have higher performance level. The unit has operated around 206 M3 feed per Kg of catalyst till June 2014 against the guaranteed figure of 83.64 M3 feed per kg of catalyst.</p>	The most recent procurement of CCR plat forming catalyst (R-264) from M/s UOP was in Dec 2013 for PX CCR Platformer at a base rate of USD 35.21/Kg and the escalated price would be USD 36.98/Kg The negotiated FOB price of current tender is USD 36/KG which is lower than the price of Catalyst R-264. The current charge of catalyst (R-134) for CCR -JR was procured from M/s UOP in Dec 2005 at a base price of USD 11.93/ lb and escalated price would be USD 36.83 /Kg. Moreover M/s UOP have offered a guaranteed life of 8 years against tender specs min guaranteed life of 4 years. In view of above , the post - negotiated price of R-334 is considered reasonable.	RHQ

21	Supply of Bunker to TC vessel, MT FORMOSA PETRO CHALLENGER (IFO 380cst- 2550 MT	Ref. Letter No.SH/OP/Bunker/Lanka IOC-02/FORMOSA-5/14-15/6 Dated 01-01-2015	1-Jan-2015	LANKA IOC	620.71	GM (Shipping)	Single Tender	1. The vessel was planned for long voyage to west African ports and therefore needed bunkering. 2. A few days window for bunkering was available before the vessel could be berthed and hence, utilised for bunkering in ladden condition. 3.Diversion to any other port in India or Fujairah or any other foreign port for bunkering was worked out not economical besides big quality concern and no known supplier. 4. Lanka IOC is a JVC of IOCL and a known supplier of bunker and as per previous experience there is no quality and quantity concern.	The rate offered by Lanka IOC USD 385 per MT was slightly higher than the publish bunker world price at Colombo which was 382.9 per MT. However, considering all the parameters of requirement including the need and the available options for bunkering elsewhere and their economics, the offered rate was reasonable and justified.	RHQ
22	Supply of Bunker to TC vessel, MT FORMOSA PETRO CHALLENGER (IFO 380cst- 3160 MT	Ref. Letter No.SH/OP/Bunker/KPC-06/FORMOSA-6/14-15/7 Dated 30-03-2015	30-Mar-2015	KUWAIT PETROLEUM CORPORATION (KPC)	645.19	ED (Shipping)	Single Tender	1. As information available in KUWAIT, only KPC is the only supplier and no other known supplier. 2. The vessel was already there for loading. 3. KPC is the national company of the kwuit and term supplier of IOCL. quality of bunker is better comparison to other supplier at FUJAIARAH etc.	The rate offered by KPC USD 326 per MT was compared with the bunker rate of FUJAIARAH published in Bunker world which was USD 325.50 per MT and was found to be in line though marginally higher but for matter of comparison less than the bunker world price at Comlombo which was USD 390 per MT. However, considering all the parameters of requirement including the need, the ROB quantity which was critical and risky to sail out without bunkering, and the available option for bunkering at Fujairah and the economics, the offered rate was reasonable and justified.
